The following is an examiner's statement of reasons for allowance: The prior art does not disclose a beverage container including a bobble head attached to the container, which is able to tilt in any direction along a 360 degree arc around a vertical axis; the bobble head having a hole for dispensing a beverage through a straw.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The prior art discloses beverage containers with figure heads which are stationary; there is no suggestion that a bobble head could be combined with a beverage container.
